

ORP60-E Replacement Electrode

Main Features

- Compatible with the ORP60, PH60, PH60S, and PH60F meters
- ORP measuring range: -1000 to 1000 mV
- Temperature measuring range: 0-50°C
- Platinum sensor with maintenance-free gel electrolyte
- Service life of up to 24 months with proper, regular use
- Oxidation-reduction potential measurement of water, solutions, and other liquids

Technical Parameters

ORP	Measuring range	-1000 ~ 1000 mV
	Junction	Single ceramic
	Sensor type	Platinum
	Reference	Ag/AgCl
	Electrolyte	Gel KCl
Temperature	Operating temp.	0 ~ 50°C (32 ~ 122°F)
	Temperature sensor	30 kΩ thermistor
Other	Body	Polycarbonate
	Dimensions	75×35×35 mm
	Weight	40 g
