

PH60S-E Replacement Electrode

Main Features

- Compatible with the pH meters of the PH60 range
- Pointed glass membrane for penetrating soft/semi-solid samples such as meat, cheese, etc.
- Integrated temperature sensor
- Double junction design
- Long-life system with an innovative polymer electrolyte

Technical Parameters

pH	Measuring range	0 to 14
	Sensor type	LabSen pointed glass membrane
	Electrolyte	Gel KCl
	Junction	Open
	Reference	Ag/AgCl
Temperature	Temperature sensor	30 kΩ thermistor
	Operating temp.	0~50°C (32 ~ 122°F)
Other	Body	Polycarbonate
	Dimensions	140×50×60 mm
	Weight	70 g
